

21st Century Power Partnership: CEM Prep Side Event Agenda

15:00 – 16:00, February 3, 2020
Room 4, Crown Plaza Riyadh
Riyadh, Saudi Arabia

The 21st Century Power Partnership (www.21stcenturypower.org) will host a side event in coordination with the CEM Secretariat and the Government of Brazil. The NICE Future Initiative (<https://www.nice-future.org>) will also participate.

This side event will highlight recent energy innovations in Brazil, and summarize recent work from the 21CPP and the Nice Future Initiative.

Agenda

- 15:00 – 15:10 Introduction / Welcome, Clarissa Forecchi, Ministry of Foreign Affairs, Brazil
- 15:10 – 15:20 Video Greeting, Thiago Barral, Executive President, EPE, Brazil
- 15:20 – 15:40 21CPP Recent Activities and Publications, Jeffrey Logan, National Renewable Energy Laboratory
 - 10 Principles of Power System Transformation
 - Innovative Utility Offerings from Around the Globe
 - Status Report on Power System Transformation 2019: Power System Flexibility
 - Other Activities
- 15:40 – 15:50 Nice Future and Power System Flexibility, Jordan Cox, National Renewable Energy Laboratory
- 15:50 – 16:00 Question and Answers / Wrap Up

All registered participants in the CEM Ministerial Preparatory Meeting are welcome to attend.

More information about the CEM is available [here](#).

We are happy to answer any questions you have about the side event and look forward to seeing you in Riyadh.

Yours sincerely,

Jeffrey Logan
